

CASE STUDY

SOMERSET COUNTY CRICKET CLUB

Somerset CCC required a gym that caters for the men's senior team, developing cricketers and the recent addition of the new professional women's cricket team.

The design of the gym involved working with the club and contractors to create a professional performance gym environment suitable for all athletes. To cater for the range of athletes involved internal changes were made first in order to create the necessary changes in the long run. This included floorplans being designed and equipment list ascertained to meet the specifications outlined by the requirements of the S&C and medical teams. Delivery and installation were co-ordinated efficiently and effectively by PB and our logistics partners.

Perform Better were selected for this project due to the design concept we delivered, our product knowledge, user knowledge and customisation available.

EQUIPMENT

- 45 Degree Leg Press
- Adjustable Hi-Low Pulley
- Adjustable Glute Ham Bench
- Leg Extension/Curl
- Belt Squat
- Olympic Disc Set
- Squat Stands
- Bars
- Hex Dumbbells
- Storage
- Flooring
- Turf Track
- Recovery items
- Branded Platform Insert
